Get your school ready for this year's High School Voter Registration Drive, **April 19—23, 2010**. All public, private and charter high schools will be taking part in this annual competition. The school with the most registered students will receive the coveted brass trophy. To date, Stoneman Douglas High School holds the record with over 700 new students registered. Can anyone top that? We will see!

A student workshop/training will be held on **April 6th and 7th** in your school's media center to communicate voter registration policies and procedures. This will be a video conference training streamed live to you, hosted by **BECON**. A list of 4 to 6 students per school should be submitted as designated representatives as soon as possible. These students will become trained deputies capable of holding its school's registration drive at the conclusion of the workshop. A bundle of supplies will arrive at your school prior to the workshop, and addressed to the contact person that your school chooses. Good luck everyone and we'll see you at the training.
